Our story

Usercentrics is a global market leader in data privacy compliance with our Consent Management Platform (CMP). We provide easy to use, flexible and reliable solutions for every size of enterprise.

We enable businesses to collect, manage and document user consents across platforms. Achieve full compliance with global privacy regulations while facilitating high consent rates and building trust with customers.

Implementation is fast and maintenance is automated, freeing up valuable technical resources. Features like our state-of-the-art scanning technology and thousands of legal templates deliver peace of mind.

Usercentrics is active in more than 180 countries, with 2000+ resellers, and handles more than 100 million daily user consents.
